In the Christian faith, God comes in the form of three persons: the Father, Son, and Holy Spirit. Together, these three beings form the Trinity.

In a recent interview with the German writer Fabian Scheidler, Pulitzer Prize-winning investigative journalist

Seymour Hersh discussed his bombshell article that appeared in his inaugural posting on «Substack.com»: How America Took Out the Nord Stream Pipeline.¹

When Scheidler thanked Hersh for his courageous reporting, the veteran reporter shot back, "What's so courageous about telling the truth? We're supposed to tell the truth!"

I've known *Sy Hersh* for coming on a quarter century. While I was too young to experience firsthand the impact of his reporting on the My Lai massacre in Vietnam, I had a front row seat to the masterful job he did in bringing to light the horrible facts about what the United States was doing in the Abu Ghraib prison, in Iraq.

Legendary status isn't given—it is earned. And *Sy Hersh* has earned the absolute right to be called the GOAT² when it comes to investigative journalism. He is, simply put, the best.

I've read nearly everything *Sy Hersh* has written and I am able to put his considerable journalistic output in its proper historical perspective. It

is therefore that I feel very comfortable in concluding that, in terms of its potential for bringing about tectonic geopolitical change, *Sy's Nord Stream* reporting is his most important work ever.

The GOAT has produced what I call the Trinity of Truth.

Truth One: The President of the United States, *Joe Biden*, by conspiring with members of his national security team to deliberately bypass constitutionally mandated reporting requirements to Congress regarding acts of war undertaken by the United States, has committed an impeachable offense unmatched by any other president in the history of the United States.

Truth Two: The blow-back that will occur inside Germany to the revelations put forward by *Seymour Hersh* that the United States carried out an economic Pearl Harbor by destroying energy infrastructure critical to the well-being of the German nation has the potential of breaking up the *North Atlantic Treaty Organization* (NATO) and the *European Union* (EU), upending more than eighty years of post-war European security and stability, and resulting in the diminishment of the United States on the world stage as it becomes isolated from long-time European allies that served as the foundation of the global acceptance of the so-called "rules based international order" that has served as the means by which the United States exerted global hegemony.

Truth Three: The decision to attack the Nord Stream pipeline puts a lie to the US contention that Russia's invasion of Ukraine was an unprovoked act of aggression. Instead it is underscoring the harsh truth that the United States had a strategic plan which hinged on provoking a conflict with Russia in Ukraine to provide the geopolitical cover for ending Europe's reliance upon cheap Russian natural gas by demonstrating that every time Russia sought a negotiated end to the crisis, whether before the invasion through implementation of the Minsk Accords, or after in

* *Scott Ritter*, born in 1961, is an author and a former United States Marine Corps intelligence officer and United Nations weapons inspector. He served as a junior military analyst during Operation Desert Storm and then as a member of the *United Nations Special Commission* (UNSCOM) overseeing the disarmament of weapons of mass destruction in Iraq from 1991 to 1998. His newest book is *Disarmament in the Time of Perestroika* published by Clarity Press in 2022.

the Istanbul round of talks scheduled for April 1, 2022, the United States sabotaged the effort, keeping the conflict alive long enough to implement its major objective – the destruction of Nord Stream.

In short, Sy Hersh, through his reporting, has exposed truths which have the potential of bringing down a presidency, destroying NATO, and proving Russia right in the eyes of the world.

Name one other piece of journalism in the past half-century that packs such a punch. You can't.

Sy Hersh is a national – no, an international – treasure, something this Trinity of Truth underscores. Be sure to treat him as such.
